

SUBHAN KASHIF

Software Engineer · Full-Stack Developer

subhankashif696@gmail.com | 0321-1017677 | Lahore, Pakistan | github.com/Subhan696

PROFESSIONAL SUMMARY

Final-semester Computer Science student at COMSATS University with hands-on experience building full-stack web, mobile, and cross-platform desktop applications. Strong foundation in OOP, data structures, algorithms, and database design across SQL and NoSQL systems, with growing expertise in AI/NLP-integrated development. Skilled at developing, debugging, and optimizing software in cross-functional teams, and seeking a software engineering role to write scalable, maintainable code and deliver impact from day one.

TECHNICAL SKILLS

Languages	JavaScript (ES6+) · TypeScript · Java · Python · SQL · HTML5 · CSS3
OOP & DSA	Classes · Objects · Inheritance · Encapsulation · Polymorphism · Stacks · Queues · Linked Lists
Frontend	React.js · React Native · Electron.js · Responsive UI · Component Design
Backend	Node.js · Express.js · FastAPI · REST API Design · JWT Auth
Databases	MongoDB · PostgreSQL · SQLite · SQL Server · Mongoose · SQLAlchemy
AI / ML	LLM & OpenAI API Integration · RAG Pipelines · Embeddings · Prompt Engineering
Tools	Git & GitHub · Postman · Agile Basics · Software Best Practices · Debugging

PROJECTS

GradeWave — Smart Teacher Assistance using NLP (Final Year Project) Jul 2025 – May 2026

[React](#) · [React Native](#) · [FastAPI](#) · [PostgreSQL](#) · [LangChain](#) · [OpenAI](#) · [Pinecone](#)

- › Built a full-stack AI grading platform (3-person team) that automates quiz generation, grading, and plagiarism detection, cutting teacher workload and giving students instant feedback.
- › Engineered a Retrieval-Augmented Generation (RAG) pipeline with LangChain, OpenAI embeddings, and a Pinecone vector store to auto-generate topic-relevant quizzes from uploaded course documents.
- › Implemented an automated grading engine combining deterministic MCQ scoring with a GPT-4o, rubric-based short-answer grader, plus semantic plagiarism detection using cosine similarity.
- › Delivered a React + TypeScript web app and a React Native (Expo) mobile app backed by a unified FastAPI REST API with JWT and Google OAuth authentication.

SecureHaven — Online Voting System Jan 2024 – May 2024

[React.js](#) · [Express.js](#) · [Node.js](#) · [MongoDB](#) · [JWT](#)

- › Built a full-stack secure online voting platform with role-based access control (admins, candidates, voters), securing ballot integrity with JWT authentication and bcrypt hashing to prevent duplicate voting.
- › Designed a real-time results dashboard with live vote tallying and a responsive React interface, backed by RESTful endpoints for registration, ballot submission, and audit logs.

ATG Warehouse Management & POS Billing System Jun 2024 – Oct 2024

[Electron.js](#) · [React.js](#) · [SQLite](#) · [Node.js](#)

- › Developed a cross-platform desktop application for wholesale operations (inventory, purchase orders, POS billing) on an offline-first SQLite schema with real-time stock deduction and printable receipts.
- › Added reporting modules for sales analytics, stock summaries, and automated low-inventory alerts.

Wholesale Management System Mar 2024 – May 2024

[SQL Server](#) · [T-SQL](#) · [Stored Procedures](#)

- › Designed a relational database for wholesale operations (inventory, orders, suppliers), writing stored procedures and views for sales reporting and inventory reconciliation.

Music Player Application Aug 2023 – Sep 2023

[Java](#) · [Data Structures](#) · [OOP](#)

- › Built a Java music player using linked lists, queues, and stacks for playlist management and track navigation, applying core OOP principles throughout.

EDUCATION

B.S. Computer Science — Final Semester

COMSATS University Islamabad, Lahore Campus

Relevant Coursework: Data Structures & Algorithms · Object-Oriented Programming · Database Systems · Software Engineering · Web Technologies · Artificial Intelligence

Intermediate (FSc) — Pre-Engineering

Forman Christian College (FC College), Lahore

Matriculation — Science

The Educators School, Lahore

CGPA: 3.0 / 4.0

Sep 2022 – Present

Grade: A

Sep 2020 – Jun 2022

Grade: A*

Apr 2018 – Jun 2020

LANGUAGES

English — Full Professional Proficiency | Urdu — Native | Punjabi — Native
